

Between the Trees

Social story

Supported using public funding by

**ARTS COUNCIL
ENGLAND**

Between the Trees is a virtual show with actors, music, singing and sensory play

You will meet the pixies in the forest

Colette is a pixie

She wears a blue t-shirt and green
dungaree

Colette will wave to you

You will meet Jess

Jess is a pixie

She wears a red t-shirt and green
dungaree

You will meet Elyse

Elyse is a pixie

She wears an orange t-shirt and
green dungaree

You will meet Vicky

Vicky is a pixie

She wears a yellow t-shirt and
green dungaree

Vicky will become the bluebird.

Jess will become the squirrel.

Colette will play a shaker

Vicky will play the spoons

Elyse will play the drums

Jess will play the tambourine

Elyse and Colette will become the frogs

The pixies will wave goodbye

**ADDITIONAL
INFORMATION**

Sensory guide

You have access to a sensory guide from the pixies, that looks like this...

DEAR FOREST WANDERER,

We are so pleased that you are joining us in our forest home! Not many people come to visit the forest anymore, and even fewer properly look around when they do come. We want to show you the magic that can be found between the trees, if you stop to truly see it! You might be surprised at what has always been hiding in plain sight.

If you'd like to experience what it is like in our forest, with your senses, these are the sensory items we suggest you have:

- A Forest Basket (this can be anything that will hold your forest items e.g. a bowl or a shoebox you have decorated)
- Items for your Forest Basket - some examples are:
 - Herbs (A Pixie's favourite is Parsley)
 - Twigs
 - Leaves
 - Pinecones
 - Pine scented essential oil

(But everybody's Forest Basket can be different, so don't worry if you don't have something on the list, or you'd like to add something different to your basket!)

- A homemade paper fan (see the DIY video for how to make this)
- Something soft - (a scarf or glove, a ball of wool or a blanket work well for this!)
- Something percussive e.g. spoons, rice in a bottle or something you can hit like a

collect the objects that are bullet pointed
before the show begins

There are videos available on our
website, demonstrating how to make and
use these objects

www.moonbeamtheatre.com

On page 2 of the sensory guide, there are descriptions of the 5 sensory moments which link to parts of the show.

During the show, the sensory moment will be shown by the right number popping up on the stage

When this symbol is on the screen, join in with your sensory objects

Nature Expedition

You will have access to a PDF that looks like this

What did I see? Tick off what you saw!

I saw an animal	<input type="checkbox"/>			
I saw an insect	<input type="checkbox"/>			
I saw a tree	<input type="checkbox"/>			
I saw a leaf	<input type="checkbox"/>			
I saw a flower	<input type="checkbox"/>			

After watching the show, print this or carry it electronically and head outside for a walk in nature.

Bring something to write with and fill out the booklet on your walk. You can also colour the PDF in when you get home

What will you see on your walk?
